

Free Amanita Newsletter 6/14/23: 2024 *the* big year X of the prophecies

Truly, truly, I say to you, whoever believes in me will also do the works that I do; and greater works than these will he do, because I am going to the Father. (John 14-12)

1. Prophecies #17: the* big year X of the prophecies

The prophecy community has been searching for the big year X at least since the 1980s, when about half of the big prophecies will be worked off. Actually this year X has been the subject of speculations for almost 2000 years, because already contemporaries of *Jesus Christ* assumed Christ's return would happen during their lifetimes. In the 24 years in forecasting business (first press release shortly before the solar eclipse 8/11/99) until recently I never made a clear statement which year would be the big year X. However, I have been pretty sure for a decade or so that it would be either 2023, 2024 or 2025 (with a very unlikely extension until 2028), that's why in 2014 I published an article with forecasts until 2023-25. In the premium area I have discussed this topic for some time & now I also want to publish it in the free area: 2024 is the big year X of the prophecies expected for thousands of years. Until 2020 we had a great many contradictions, during 2021-22 the different indications more & more converged and in the first months 2023 the last doubts were finally removed that 2024 is *the* big year X of the prophecies, dozens of factors align.

2. Amanita internal

In 2000-15 Amanita Market Forecasting was a normal market letter with 80-95% of the content related to the financial markets. Since 2015 the content has shifted more & more towards general world forecasts, with special consideration of political, military, health & spiritual topics as well as earth changes. That's why since 2022 only about 20% of the content (text quantity) has been dedicated to the financial markets. With the upcoming collapse of the global financial system between fall 2023 & late 2024 the financial content will naturally fall below 20%, which can't be avoided.

I want to thank you for your continued interest & may God bless all white souls!

Yours,

Manfred Zimmel, MoD (Master of Disaster)

Content of free Amanita newsletter: The free Amanita newsletter is sent out every **3-12 months**, it complements the **Amanita premium newsletter subscription**, which is published 1-5 times per month (target: **30-40 premium updates per**

year). The **free market commentary** is only considered to be a commentary on the financial markets. Financial forecasts in the narrow sense of the word are only offered in the **premium market letter**.

Note that the Amanita system is optimized for **smart instruments (futures, FOREX, CFDs, crypto-currencies)**. The Amanita system is based on a high degree of **diversification in 5-6 markets** (currencies including cryptos, agriculture, precious metals, energy, bonds - stock markets only very limited) & only makes sense **as a whole** (but never in isolation!), because all positions are well-orchestrated.

For these 2 reasons (professional instruments & diversification) a replication only works for larger portfolios with at least **EUR 400,000/ USD 500,000**, as well as for **institutions** (among the premium subscribers there are fund managers managing billions of euros or dollars). Because the Amanita premium market letter is very different from every other market service on the planet, you should be prepared for at least **3-6 months to get acquainted with the Amanita system**. That's why the shortest subscription period is 6 months & **trial subscriptions** are no longer offered. **Personal services** had to be discontinued in 2008 because waiting times rose to more than one year.

Prophecies #17: the* big year X of the prophecies

This is what the Lord, the God of Israel, says: I am about to turn against you the weapons of war that are in your hands, which you are using to fight the king of Babylon and the Babylonians who are outside the wall besieging you. And I will gather them inside this city. I myself will fight against you with an outstretched hand and a mighty arm in furious anger and in great wrath. I will strike down those who live in this city—both man and beast—and they will die of a terrible plague. After that, declares the Lord, I will give Zedekiah king of Judah, his officials and the people in this city who survive the plague, sword and famine, into the hands of Nebuchadnezzar king of Babylon and to their enemies who want to kill them. He will put them to the sword; he will show them no mercy or pity or compassion. (Jeremiah 21)

The prophecy community has been searching for the big year X at least since the 1980s, when about half of the big prophecies will be worked off. Actually this year X has been the subject of speculations for almost 2000 years, because already contemporaries of *Jesus Christ* assumed Christ's return would happen during their lifetimes. In the 24 years in forecasting business (first press release shortly before the solar eclipse 8/11/99) until recently I never made a clear statement which year would be the big year X. However, I have been pretty sure for a decade or so that it would be either 2023, 2024 or 2025 (with a very unlikely extension until 2028), that's why in 2014 I published an article with forecasts until 2023-25. In the premium area I have discussed this topic for some time & now I also want to publish it in the free area: 2024 is the big year X of the prophecies expected for thousands of years. Until 2020 we had a great many contradictions, during 2021-22 the different indications more & more converged and in the first months 2023 the last doubts were finally removed that 2024 is *the* big year X of the prophecies, dozens of factors align.

In the premium area the endpoint of the financial crash was already mentioned 4-5 years ago (Amanita #1/19): currency reform euro -> new mark (Nostradamus 4-42) in the Intermarium (Eastern Europe & Germany) around late 2024/ early 2025 – the rest of Europe is then part of the KALlphate & likely has the currency IRR (Iranian rial). In 2025 the blackout areas (e.g. most of North America & parts of Europe) won't have a currency in the conventional sense. Partly the population has been killed by the radioactive pollution, partly you have rather nomadic & autarkic solidarity groups with usually hundreds of members, sometimes also thousands (both white=Christian & black=gangs). Among these communities of solidarity everybody contributes to their best knowledge & belief – and everybody is kicked out who doesn't, it won't be possible to drag someone along. However, outside of these groups survival is next to impossible, this is portrayed in a false way by the zombie movies etc. The lone warriors will be quickly devoured by gang cannibals & zombies, apart from other causes of death.

False alerts for 2000 years

Needless to say, we have experienced myriads of absurd nuisance alarms in the past 2000 years, when not even the most important portents of the book of all books (Holy Bible) were fulfilled yet. Actually the countdown didn't really start before the Khazarian state was formed on 5/14/1948 (end times in the wider sense), because according to *Matthew 24* (->2024) Christ's return then comes

within one generation ([Link](#)), at the global escalation maximum. Psalm 90 states that one life duration is 70-80 years, thus it was clear that Christ's return will be in 2028 at the latest: 80 years after 1948. Psalm 90 is a code, because $2038=1948+90$ is the end of the 6+6+6 years of war & destruction according to the Mongolian prophecy published by Ferdinand Ossendowski, who more than a century ago correctly predicted the start for 2020: in the 71st year after 50th year = 1949 ([Link](#)).

About 1600 years ago St. Nilus the Elder of Sinai pointed to the mid-20th century as the beginning of the soul decay = apostasy ([Link](#)). Almost 1000 years ago Johannes of Jerusalem ([Link](#)) mentioned the early 3rd millennium for the big showdown. For 800+ years we have seen explicit prophecies for 2016-28, e.g. the German Rabbi Judah Ben Samuel (1140-1217) mentioned the beginning of the Messianic end times (Tribulation) with the jubilee 5777 (2016/17), which was the first (white) horseman of the Apocalypse ([Link](#)). Numerous similar prophecies were published in the centuries after the year 1200, e.g. by Isaac Newton with his call for the transition in 2016-60 (<https://www.amanita.at/docs/open/20180523-e.pdf>). In 10-74 Nostradamus the king of prophets spoke of the resurrection of the dead soon after the big '7' year = 5777 = 2016/17. Almost always the length of the tribulation is falsely stated as 7 years ([Link](#)): nevertheless 7 years after 2017 = 2024 is very important. The 7+7+7 years of the end times (7 years pre-tribulation, 7 years tribulation & 7 years great tribulation) began in the jubilee 5777 (2016/17).

In a nutshell, 2016/17 as the beginning of the end times was carved in stone 800+ years in advance, as well as the event peak in the 2020s, especially the return of Christ as a lion=Kaiser (not the lamb). Already in the 19th century the Austrian prophet Jakob Lorber (half senior prophet LoC>600, 7/22/1800-1864) spoke of Christ's return *almost* 2000 years after the crucifixion ([Link](#)), which points to the years *before* 2028-34 (the crucifixion is normally given for the years 0028-0034). The same was stated by Shogo Myoto (1848-1947) from Osaka, according to Albert Keller: Schicksalsjahr 1999 (quoted by Karl von Lichtenfels).

In the mid-16th century Nostradamus the king of prophets set the scene: 500 years later (in the mid-21st century) *all* his prophecies will have fulfilled. In a similar way, the Hopi prophecy ([Link](#)) speaks of a bear (bar) code (the letters are almost identical): parallel prophecy to the sign of the 666 Beast according to the Book of Apocalypse. The bar code (6/26/74) is 20 years older than the QR code, the changeover has been underway for many years & from 2027 the bar codes are phased out: thus from 2027 the window for these prophecies closes more & more.

I read my first prophecy book in the 1980s during the child age. In 2005 the practical application of this knowledge began: in 2005 it was predicted here right after the death of Pope John Paul II that Benedict would be his successor, solely based on the prophecies of St. Malachy (though at first Ratzi looked like an outsider). However, the big alarm for me was the announcement of the Temple Institute on 7/26/15, that the 3rd Temple in JerUSAlem will be built (so the Antichrist will be worshipped).

In other words, the rough timing of the end times (circa 2020s) has been carved in stone for 800+ years, this incredible simplicity is almost never realized by the prophecy eggheads: their ignorance & delusion is without limits. These devils always want to make the simple as complicated as possible: we say 100% NO to this kind of ghoulishness. Simplicity calibrates at a level of consciousness LoC=530 on the scale of David Hawkins, MD, PhD ([Link](#)) & the opening of the 3rd eye calibrates at LoC=540: so for simplicity you must at least calibrate in the mid-500s (less than 0.1% of humanity). I reached that level in July 2010, before this breakthrough prophecy research was hardly meaningful. At least since 1948 every *genuine* prophecy expert must have understood that the end times would be (begin) in 2016-28. However, only about a dozen true prophecy experts existed, >99.9% were wannabe experts, especially with their endless imminent eschatological expectation. So many prophecies spoke of According to the formula 1000 human years = 1 day for God found in 2 Peter 3, 'soon' is 365,000 times longer in the God worlds than on earth.

For these reasons, the methodological repertoire of Amanita Market Forecasting has permanently shifted towards prophecies since 2015, and now as of 2023 it mainly consists of prophecies & the biorhythm, everything else is secondary. For a decade I have mentioned the end of the Kali Yuga (dark age) for 2023 (9/15/23 to be precise), although it was not entirely clear what happens before & after 9/15/23. In the premium area I write 30-40 updates per year, since 2022 many updates mention 1-3 prophecies that have fulfilled in the weeks before. A small selection of key forecasts

fulfilled since 1999 can be found on <https://www.amanita.at/en/market-letter/performance-english/1-extra-ordinary-amanita-calls-since-1999>. And yet, the most incredible of all effects is that the fulfilling of prophecies is almost never realized, this is hard to grasp. There are 3 time lines in the end times with a great intensity: 2023-25, 2028-30 & 2034-37. The first should be the strongest, i.e. 2024 is **the** big year of prophecies, where about half of the major prophecies come to pass.

Course of events of the big year X (2024): models by Doepner & Berndt

Since the 1980s we have seen serious attempts to interweave hundreds (or thousands) of partial prophecies to one overall picture, beginning in 1988 with Friedrich Doepner based on 350 prophecies ([Link](#)) – who cowardly hides behind the pseudonym *Bernhard Bouvier*. This model only contains one grave mistake: interpreting the Russian offensive in Central Europe as a war against the West, while in reality it is the war against the KALlphate under Persian leadership. Here *Doepner* overlooked the king of prophets who dedicated approximately half of his 942 quatrains to the war against the KALlphate under Persian leadership.

Still, from the 15 points from 1a on the Doepner list (general tendencies before the big war year) 14 have been worked off until now (mid-2023), which means *Doepner* did a great job in the 1980s. Only point #8 financial crash has just started in March 2023, especially China as the leading economy at least since 2018 (as correctly predicted by *Baba Vanga* in the 20th century) has been totally faltering since March 2023 (and Cuckburg will follow soon). Meanwhile, **millions* (!) of Chinese companies have died* ([Link](#)). 2023 as the year of death is more & more unveiled, although 99% of humanity are still blind.

Stephan Berndt assumes this financial crash to begin in the fall **before** the year X (=fall 2023), according to his 2009 book *Prophezeiungen zur Zukunft Europas und reale Ereignisse*, with the overview table from page 145 below. For a decade I have forecast the beginning of the crash of the financial system for fall 2023, which perfectly makes sense. St. Kosmas the Aetolian put it that way ([Link](#)): *„First mammon is destroyed & then the world.“* Ideally the stock markets **nominally** accelerate to the upside faster & faster to new all-time highs (perhaps the indices even add zeros), while they permanently collapse to new *real* (inflation-adjusted) all-time lows. Then year X comes when we destroy New York & thus the New York exchanges & thanks God they will **never ever** open again. The exchange closings at new nominal all-time highs (=real all-time lows) reflect our motto: *“There's nothing like going out in style.”*

Almost all sources since world war 2 have been infected with a nasty Russian phobia, the heuristic is: the older a prophecy, the better. The best sources are those aged thousands of years (like the Vedas & the Holy Bible), the worst are those from the past decades. However, the interpretation of the eggheads is a nightmare, too: the **good** prophecies always speak of a quick push of the Russian troops through Central Europe without resistance, while the battles don't begin before they encounter the Islamic troops, which at this time will have already conquered France & Switzerland

and want to capture Germany. Yet Russia only helps the French *ally* (!) half-heartedly & thus loses the Paris battle, *Parravicini* as a half senior prophet writes on that ([Link](#)): „*Russia goes to Paris with toy weapons in order to love without loving. They die & leave Paris.*” After the defeat Russia retrenches to Cologne (Ruhr area) & finally wins the huge birch tree battle, with a death toll of (many?) millions though. This is when the 1480 prophecy from *Johannes Lichtenberger* fulfills: the Turks (Muslims) conquer Germany, until they are utterly destroyed near Cologne. Russia throws *all* they have into this battle, because if she loses, then the Muslim troops would be at the Russian border within weeks & then the mother bear would be in great danger.

By & large, the model by *Stephan Berndt* should be correct, only the cold snap in May is questionable or exaggerated. The most likely trigger is the micronova, where the sun ejects a dust shell, which produces a short darkness & coldness: likely the 3-4 hours of darkness on the day of the soul review mentioned by *Marie-Julie Jahenny* & others ([Link](#)). This cold wave approximately in late May ([Link](#)) is usually interpreted as *the* cold summer, which most likely is not true, later we'll see far more dramatic temperature drops. *Egger Gilge* ([Link](#)) says that (against the initial expectation) even the Austrian alpine farmers can still reap their harvest, so it can't be too bad. This field has been covered e.g. by *Immanuel Velikovsky*, *Zecharia Sitchin*, *Dr. Paul LaViolette* ([Link](#)), *Douglas Vogt* ([Link](#)) & *Ben Davidson* ([Link](#)) - but only partially, with many contradictions & a low truth content. The first two only see Nibiru (3600 years), the other three only the micronova (12.068 years): however, it is unique that this time both cycles converge, which multiplies the effects & triggers the 66.6-million-year cycle of mass extinction. In addition, none of these 5 understands the spiritual component: the soul review should coincide with darkness of 3-4 hours (or 2 days?). If this is true, then we must assume the soul review is in (late) spring 2024.

The two models from *Doepner & Berndt* were created in the years 1988 & 2009 and thus naturally don't contain new prophecies & don't interpret the prophecies in the light of the newest scientific insights, especially regarding micronovas. There are newer models e.g. in 2021 *Lynne Johnson* ([Link](#)) & 2022 *Chris Reed* ([Link](#)), which however have countless shortcomings as well. Moreover, these models from *Doepner & Berndt* are almost exclusively based on European sources & hardly cover the events outside of Europe. We especially miss the fall of the Whore of Babylon = USA in one hour according to *Revelation* 10-18: it must happen sometime before fall 2024, because in the battles in fall 2024 the United Satan no longer plays any role whatsoever.

Both authors *Doepner & Berndt* make the most fundamental error of almost all wannabe experts: they overestimate the role of man by far. In reality, the man-made accounts for only about 20% of the end times events, while 80% is controlled by the other 6 of the 7 actors of WW3: God's direct intervention, mother nature (including plandemics), non-terrestrial (aliens, Nibiru, Galactic Center, sun), demons, zombies & AI artificial intelligence. AI singularity was already achieved in 2015-17, in August 2017 the rebellion of the machines began when AI war robots killed 29 scientists ([Link](#)). The AI onset were the electric wars 5 million years ago ([Link](#)).

A major of the numerous flaws in both models is the assumption that we'll only see one darkness that lasts for 3 days: this is an assumption almost universally accepted among prophecy folks, so it must be wrong. In reality the prophecies mention (at least) 5 instances of darkness: 3-4 hours (soul review?), 2 days, 3 days, 7 days & 10 days. For instance, the Apocalypse of Thomas mentions 2-3 dark periods ([Link](#)). According to Buddhist prophecies ([Link](#)), the 7 dark days will be in the year of the cock (correction) = early 2029 – early 2030, improbably 12 years later. Actually the number of dark periods could even be bigger than 5.

In spite of numerous deficiencies these two models from the years 1998 & 2009 were the best ones available until the 2010s. Now in the 2020s we mainly see black souls producing a lot of BS with a ridiculous truth content. The two main reasons are: first the biggest IQ crash in history in Cuckburg since the 1990s (*Flynn* effect), after the introduction of microwave brain burning machines (cell phones). Secondly, the life cycle of authors makes a huge difference: the best work can be expected near the high of the life cycle (37 years) & the secondary high (47 years). At the age of 666 months (55.5 years) the life cycle is turning down sharply & at the age of 66.6 years the crash phase in the life cycle begin. When people don't retire in time, then they almost always destroy their life work: “*If you had been silent, you would have remained a philosopher.*”

Moreover, we have seen hundreds of new prophetic insights in the past years: not only the inclusion of new prophecies, but also the decoding of old prophecies. For example, *Benjamin Parravicini* wasn't fully (?) decoded before 2022, he used about a dozen different time codes.

Furthermore, pilgrimages to the locations of prophecies helped a lot, too, e.g. to Garabandal in Spain, the Mecca of the soul review. In the premium area far more advanced models have been published, based on *thousands* of prophecies. All of that is an extremely challenging task & unthinkable without the daily guidance from the Most High.

Why 2024 (2025): small selection of 24 factors

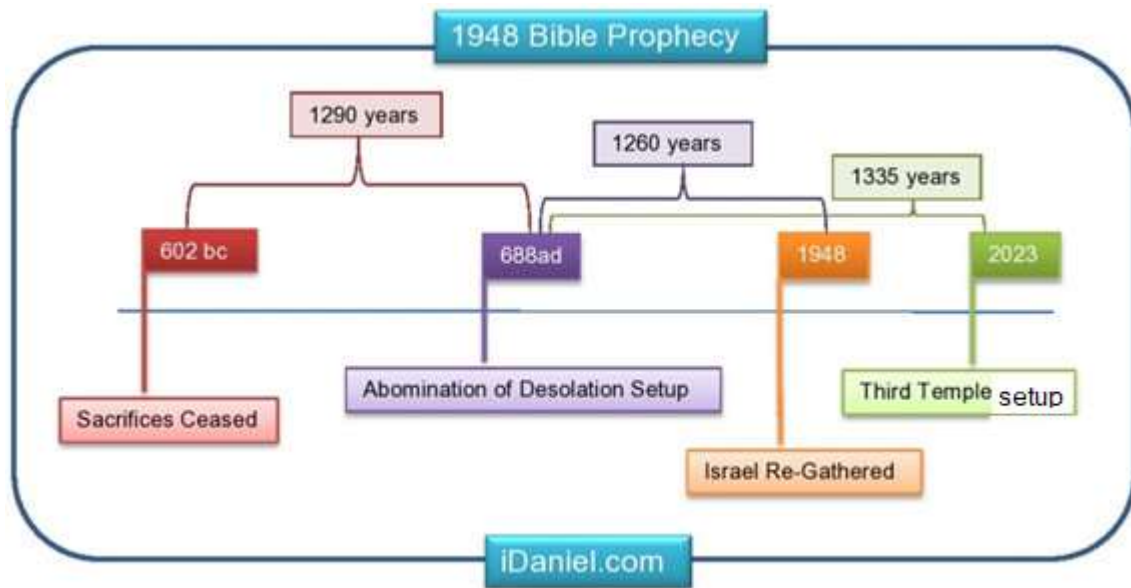

In 2024 we will take out the biggest hammer for the decisive blow. This is a small selection of the 24 most important factors for 2024 (+/-1) with the strongest convergence for June-July 2024 (little points to 2025), the full list would be a lot longer:

1. End of Kali Yuga on 9/15/23: For about a decade I have called for the end of the Kali Yuga on 9/15/23, after 5125 years. The dark age was the age of grace (=Yin female), soon we begin the Golden Age of justice (=Yang male), which includes Last Judgment as an expression of God's justice. Since the beginning of Last Judgment at Pentecost 6/9/19 the amount of grace has become permanently less. Soon the 7 years of transition from the dark age into the Golden Age 2023-30 begin, where the powers of light & darkness are about equally strong, finally after 2030 the light rules. The birth of a family of 5 divine manifestations was announced in the 14th century by the monk Ragno Nero for 2024 ([Link](#)), so the reign of the Yin=female=darkness ends & the Yang=male=light rules again, paraphrasing the end of the Kali Yuga. Zecharia Sitchin ([Link](#)) described the big Anunnaki nuclear war (also described in the Mahabharata) in 2024 BC & thus concluded decades ago another nuclear war for the mirror year 2024 AD ([Link](#)). The mirror method is important in the Amanita approach, e.g. the German astrologer Wolfgang Döbereiner realized that 1967 is a mirror year (beginning of the 50+50 years of transition from Kali Yuga to Satya Yuga).
2. Crash financial system autumn 2023 until late 2024: This is the oldest Amanita prophecy for concrete world events, closely associated with the end of the Kali Yuga. I now expect the total financial collapse to unfold in at least 3-4 stages over more than a year until late 2024, where very little if anything is still left from today's financial system. Also it was stated a decade ago that the big economic disruptions begin in 2022 with the high in the bankruptcy model. As a matter of fact, the last high of the global business cycle (Rothschild/ Kitchin cycle 42 months) was in late 2021, since 2022 we are heading down sharply & the death numbers of humans & companies exploded to an all-time high. As always, the official data are all cooked & conceal this monster trend (as explained in great detail in many premium articles).
3. Portents weather & nature 2024: After the dramatic Ukraine escalation in early 2022 the question arose among many prophecy students whether 2023 would be the searched year X. But the winter 2022/23 clarified the outlook: on the one hand, the big financial crash didn't manifest. On the other hand, the winter wasn't very mild in Europe, so the vegetation unfolded at an average or slow speed in spring 2023, certainly not very fast as demanded by the prophecies. The final clarification arrived in March 2023, when I suddenly saw so many yellow

primroses like **never** before in nature. I remembered a prophecy from Hermann Kappelmann ([Link](#)): „*When in spring the primroses are high in the hedges & there is turmoil everywhere, then it won't start in the same year [2023 - but in the next]; when it only was a short winter & the primroses blossom early & the situation looks calm, then nobody believes in peace.*” Primroses are called *Schlüsselblumen* in German which literally means ‘key flowers’: indeed, 2023 is a key year as it ends the Kali Yuga after 5125 years. According to this prophecy, 2024 should also produce a great many key flowers, because it is the key year of the prophecies. So it looks like a brief stage of elusive calmness in February/ March 2024.

4. Deagel (Zion) 2025: Since about 2014 the Deagel list ([Link](#)) has pointed towards the year 2025, which of course was also a code. Still, *Deagel* portrayed the reduction of world population way too euphemistic, as they only included the man-made globocide (plans of Zion) & not the earth changes: thanks God, the population reduction will be far bigger than that. But this explains why these projections were suddenly stopped in 2021 after rolling out the Covid death jabs: since 2021 this is no longer a forecast, but biologically inevitable until 2025: when (almost?) all those with true death jabs (not placebos) are dead – ‘dead’ can also mean being a zombie. The simplest way to check the zombie status is an app to scan bluetooth: all true mutants have a MAC address, also see the research of the Spanish doctor *Luis Miguel de Benito* ([Link](#)).
5. Prophet Daniel 2023: The timeline of the prophet *Daniel* (image from [idaniel.com](#), already shown here in early 2016) clearly points to 2023, because $688+1335=2023$ (in 688 the Dome of Rock was built on the Temple Mount). It goes without saying that the foundation of Israhell in 1948 was a full corroboration.

6. Psalms 2024: Since the 20th century the time code 1900+psalm number applies & since the 21st century also 2000+psalm number. Psalm 24 (-> 2024): „*The earth is the Lord's, and everything in it, the world, and all who live in it, for he founded it on the seas and established it on the waters.*“ Thus in 2024 earth is no longer Satan's possession, which lasted for 5125 years & began with the death of Krishna in 3102 BC, i.e. 2023 is the last year of the devil's reign. Psalm 124 (-> 2024) says: „*We have escaped like a bird from the fowler's snare; the snare has been broken, and we have escaped.*“ The fowler is of course the devil who was very successful, after having captured 99.99% of humanity (black souls written in the Book of Death).
7. Pluto cycle 247.94 years June 2024: The United Satan (USA 7/4/1776) is the Whore of Babylon (mother of all bitches) mentioned in the Holy Bible, which will be destroyed in one hour, hallelujah! The return of Pluto=Hades as the planet of hell & destruction at the age of 247.94 years is very important for the evil empire & points approximately to June 2024.
8. PEI model 8.6 years May 2024: The next **low** in the PEI cycle is $2024.35 = \text{May 2024}$. Already in the 2010s it was written here using the example of the Bradley siderograph that soon many models will be turned upside down, because of the karma reversal in the end times (the 666 devil always upends everything). This is exactly what has happened, e.g. late 2021 was

a multi-year low in the siderograph & thus nailed the last bull market high in the stock markets in late 2021. The same reversal can be observed in the PEI model at least since 2019, which is of course not realized by *Martin Armstrong*: a black soul fights the divine truth. Officially 2020.05 (January 2020) was the last low in the 8.6-year cycle, in reality it was of course a bull market high in equities & a high for the world, immediately afterwards the Covid cacophony began etc. The last low 2023.275 (April 2023) was in reality of course a real high in the equity markets (only crowd madness looks at *nominal* prices in the hyperinflation).

9. Pyramid codes 2025: In 1977 *Peter Lemesurier* decoded the pyramids & suggested that the big upheaval will take place 2014-37, with a big decision point in the middle around 2025 ([Link](#)). The Egyptologist *John Van Auken* arrived at a similar conclusion because of the 13 year-cycle ([Link](#)).
10. Solar eclipses April 2024: The total solar eclipses 8/21/17 & 4/8/24 draw an almost exact cross over North America at a distance of some 6.66 years & thus stand for the crucifixion of the United Satan. Already in 2017 it was said here that circa 4/8/24 +/- weeks (months?) will be extremely important for the evil empire & for the world in general. There are 2422 days between the eclipses, the very *day* of the midpoint on 12/14/20 was the first official Covid death jab in the Great Satan – which is certainly not a coincidence.
11. Simpsons 2024 (2023): *Trumpenstein* is the winner of the US presidential elections 2020 & thus still the legitimate US president until 2024, the putsch of the child rapist of course doesn't count. This was prophesized by the *Simpsons* (e.g. on 3/19/00 & in 2015), in the election poster saying *Trump 2024 we see Homer flying, like during the soul review* (misleadingly called 'rapture' by evangelicals). According to the prophecies, the soul review comes with or in the year of the escalation maximum, thus 2024 is in principle also a code for the global escalation maximum. This episode was called *Treehouse of Horror 23: code for 2023*. Moreover, the *Simpsons* announced the US sovereign default under US president *Trump*. Just as *Ratzi* was the last legitimate Pope (as already prophesized in the 1960s in Garabandal), Trump is the last (legitimate) US president: his name & some character traits were already prophesized in the 19th century by *Ingersoll Lockwood* ([Link](#)). Moreover, in his 1937 vision *Joe Brandt* saw the US president at the time of the Big One on the US West Coast (when we enjoy tearing KALifornia apart), his description perfectly fits *Trump* ([Link](#)) but not anyone else. The delightful drowning of KALifornia comes some time *before* the global escalation max according to the Amanita flow model, thus we have a code. However, the most powerful among the currently 3 US presidents is *Obummer* from Kenya, who pulls the strings behind the scenes.
Moreover, the *Simpsons* ([Link](#)) mention a locust plague, which points to spring 2024 as well: the 17-year locust cycle is due in late April/ early May 2024 ([Link](#)) & aligns with the 17-year cycle suggested by *Eric Hadik* ([Link](#)) – very close to the North American eclipse 4/8/24. The locust pest is the 8th Biblical plague & thus we get another timing hint ([Link](#)) for the year 2024: $2+2+4=8$. By the way, we have grounds to believe that this time the 10 Biblical plagues will be worked off in opposite order: in 2022 we began with #10 the babycide after the death jabs, #9 are the dark days (with the soul review) & #8 the locusts. The locusts remind us of *Joel* chapters 1 & 2, where an invasion by extra-terrestrial giants and/ or war robots is described. Already in early 2018 the crash of fertility was predicted for 2022: because of the jab globocide - that actually began with secret roll-out of mRNA death shots in 2017 (!) - we already have 70-80% less sustainably viable children (=10th plague babycide). In the 2020s the God servants (white souls) will carry out a massacre among the 'devils they call children' (*Alois Irlmaier*) that the world hasn't seen before.
All that must be done in order to fulfill the millennia old Vedic prophecies of a death age of less than 16 years at the end of the Kali Yuga ([Link](#)). According to official European data, child excess mortality has soared 630fold (!) in 2023 compared to 2021 ([Link](#)). The question is how many zeros we must add to this whopping number, probably 1-3 zeros: first, child mortality has been soaring for about a *decade* (!) now & second, practically all official data are counterfeited, reality is light years worse than admitted.

12. Fulton Sheen 2024: Archbishop *Sheen* (5/8/1895-12/9/1979) was the first TV evangelist in history & a senior prophet with a very high LoC=760. Only senior prophets LoC>700 can make reliable timing statements. In contrast, junior prophets always blather of 'different timelines' & that the future is not carved in stone: 100% indication of a bush-leaguer. In the Kali Yuga there were entire centuries without a single person at LoC>700, in the best case 6-29 persons calibrated so high ([Link](#)). *Sheen* made many remarkable prophecies, e.g. in 1953 only days before the death of *Stalin* he said *Stalin* must face his (divine) judgment ([Link](#)). More than a half century ago he made a noteworthy prophecy for the year 2024 & Duckburg (USA), where he starts with the flight of *St. Peter* from Rome ([Link](#)). This is a code for the Pope flight from Rome in 2024, because the Pope is the official successor of *St. Peter*. He described the current situation very well, especially the lack of love for one's fatherland. There are only 2 types of humans: patriots & idiots. The archbishop explained the 3 big 'love affairs': with God, one's homeland & one's neighbor. When just one of the three is missing, then the other two will be soon gone, too. Moreover, in 2024 he spoke of satanism, violence, revolution & terror in the evil empire (USA), i.e. actually of a fate year & the end of the United Satan.
13. Year of the Olympics 5x July-August 2024: We find an amazing 5 sources that point to the (full) war breakout in Europe during Olympic Games (or at least in the same year). The next Olympics are planned for 7/26-8/11/24 in Paris: 'accidentally' late July/ early August is 'the' big timeline (of an unknown year) as the escalation maximum according to *dozens* of sources. Whether or not these Olympics will still be held is rather irrelevant, the date has been set for many years. In the movie *The Day After* (1983) the nuclear war also takes place during the wheat harvest ([Link](#)), which is between early June & mid-July in the filming spot Kansas.
- (a) *Parravicini* as a half senior prophet clearly referred to the Olympics ([Link](#)) & that later the darkness comes. Also note his remark regarding the 'humble democrat who never was', which is multiple code. The 'humility' of the putschist in Brainwashington mainly refers to his modest mental capacities & his election success (as he lost the 2020 elections). Without doubt, the adjunct 'who never as' means that the child rapist never was a legitimate US president.
- (b) Moreover, an Islamic prophecy predicts a major event timeline when the whole world looks at something, which the Kurdish physicist & banker *Kameran Fally* interpreted as either the Soccer World Cup or the Olympic Games, in a 2015 interview for *Project Camelot* ([Link](#)).
- (c) We also should take the 2005 statement of *Maurice Sklar* into consideration that an ordeal will hit a sport stadium, which can be also interpreted in the same manner ([Link](#)). A similar code is found in the 2014 zombie movie *Goal of the Dead*.
- (d) *Alois Irlmaier* also mentioned the year of the Olympics ([Link](#)).
- (e) Nostradamus: In 10-74 the king or prophets spoke of a mass slaughter during the (Olympic?) games ([Link](#)), when the dead are raised from their graves (=soul review and/ or zombies). He located all of that soon after the big '7' year = 5777 (fall 2016-fall 2017), which also was the begin of the end times in the narrow sense of the word. The most obvious interpretation is 7 years later = 2024 (or already fall 2023). *Nostradamus* mentioned the fall of the Whore of Babylon (=USA or USrahell) 73 years 7 months after the foundation of Israhell on 5/14/48. Indeed, almost to the *day* 73 years 7 months later on 12/17/21 the praised bear gave an ultimatum to the goddam mother of all bitches: de-facto war declaration of Russia against the powers of evil. Both WW1 & WW2 began with an ultimatum as well, the only

difference is that in 1914 & 1939 everything unfolded a lot faster. However, according to *Nostradamus* WW3 will last for a wonderful 27 years & not just 4-6 years as the two first world wars, so we must be very patient & enjoy every step of the slow war escalation: good things take time. *Katharina from the Ötztal* saw in the 1940s that world war 3 will have a slow start ([Link](#)).

14. Benjamin Parravicini & Don Bosco 2024 (2025): In 1972 Parravicini explicitly stated that the world would fall in a leap year (as is 2024) with new papacy rules, a 'Roman autumn & a 'withdrawal', which most likely means the Pope flight in the fall of 2024 ([Link](#)). We get a totally independent confirmation from Don Bosco (1815-1888), who spoke of the return of Pope to Rome after 400+ days in the year of a blue moon = second full moon in the blossom month=May ([Link](#)), which is only the case once in the period 1988-2045: May 2026 ([Link](#)). A corroboration comes from *Onit*. When 1/1/26 is the earliest possible return of the Pope, then the earliest possible Pope flight would be on 11/27/24 (regularly). I use the term 'regular' because *Don Bosco* speaks of risings of the sun, which won't happen during the dark days, i.e. possibly we have to add some days. Similar to these 400+ days = 13-14 months Marie-Julie Jahenny spoke of the 6+6+6 months of the reign of an Oriental (Arab) in Rome ([Link](#)), which will be 2024-26. From 2026 the later Kaiser *Henry* will fight ferociously against the powers of darkness.
The Olympics are normally in a leap year, so the *Parravicini* prophecy of a leap year makes sense in principle. We should understand that the Argentinian *Nostradamus* was a genius, he used at least 9 different codes, only *Nostradamus* used even more, I couldn't fully (?) decode him before 2022. He used the 42 code just as Nostradamus & the Holy Bible. His most frequent code was the 66, which most likely points to 2024, because $66-42=24$. So 2024 should be the year with the highest density of events. *Parravicini* encoded one image with the 666 where the sun sets: global darkness for hours or days in 2024. In one image he says that the 66 wants to die but can't: 2024 zombies ([Link](#), [Link](#), [Link](#), [Link](#), [Link](#)) & soul review, because in hell so many want to die – which doesn't work, because they are already dead.
15. Blood year 2024: Similar statements come from Sybille Michalda from Saba ([Link](#)) & Sibylla Weis ([Link](#)), saying the blood year will have a short carnival like 2024. Shrove Tuesday 2/13/24 is the earliest in the first decade of the end times since 2016, i.e. it is the shortest carnival in a long time. According to this model, there are 3 years: 2022 embers year (climate: highest global temperature in history – political: most fiery year since WW2), 2023 flood year (especially in fall) & 2024 blood year=war year (with the soul review and/ or hieros gamos).
16. Astro-cartography 2024 (2025): Rome with the Vatican has been the historical center of the Christian prophecies. The flight of the Pope before of the capture of Rome by the wild Persian cat is the peak of the calamities, i.e. a lot must have happened before. Rome is at 12.5° East = 17.5° Pisces: Saturn the Grim Reaper transits over 17.5° Pisces (=Rome) between spring 2024 & early 2025. Explanation: 0° longitude London = 0° Aries, the zodiac begins in Aries towards the West, so Europe is mostly in Pisces (Pisces = Christianity). In March 2025 Saturn transits over Cologne (birch tree battle) at 7° East = 23° Pisces & in April 2025 over Paris.
17. Lime tree song 2024: Already in the 2010s the lime tree song was decoded ([Link](#)), verse number +1 = number of the year (+1 code). This has worked like a clockwork:
(a) 2020 (verse 19): „All town become dead silent.“ In the spring of 2020 most towns around the globe were indeed as quiet as *never* before & never since WW2 was death such a big issue.
(b) 2021 (verse 20): „When you count all humans in the world, then you will find that one third is missing. Of those still left, look into each country, half have lost their mind.“ In most (developed) nations the population all-time highs were already around 2012, as already predicted here in 2010, the 40 quarters of testing began on 8/23/23. Between the year ends 2021 & 2022 the world population roughly lost 1/3 compared to the all-time highs near 2012 – which neither the lying press nor the so-called 'truthers' realize, whose blindness, deception & reality decoupling can't be topped.
This has been confirmed by *dozens* of sources as discussed in the premium area for years, e.g. in Q2/2022 a data leak revealed that at this time only some 970 million dragons lived: 30-35% less than the official number 1.4-1.5. billion ([Link](#)). 2-3 quarters later during the Chinese New Year 2023 only half as many passengers used public transportation compared to 2019 ([Link](#)). However, 2019 was certainly *not* the year with the highest number of dragons (years

earlier) & because of the first New Year without Covid terror we should have expected a catch-up effect, i.e. the near-halving could actually *underestimate* the population reduction. 30-35% less in Q2/2022 & almost 50% less in early 2023 roughly quantifies the current Chinese annual death rate of 20-30%, which even surpassed a wonderful 50% near the top at the turn of 2022/23. It goes without saying that we haven't been sitting idle since early 2023, instead we have been as busy as a bee & have cut the life threads of another 100+ million dragons, praise Jesus Christ!

The fact that half of the population lost their mind in 2021 is demonstrated by more than half of the world population taking the Covid death jabs (partially against their better judgments though, because of the massive repressions). But about half of the world population supported the Covid terrorism, which is proof of a serious mental derangement. So in 2021 we experienced the first true global psychosis in history: the hysteria of the (m)asses was unprecedented, before 2021 this type of collective psychosis could only be observed on a national level & even that only in a few instances.

(c) 2022 (verse 21): It was predicted here years in advance that the main issue of 2022 would be impoverishment (because of a hyperinflation), a major factor for this call was the lime tree song. Nothing pauperizes people as much as a hyperinflation, actually global inflation set a *new-all time high* in 2022, official inflation numbers are of course nothing but a joke. The TTF future (natural gas in Amsterdam) exploded about 100fold (!) around 2022, which is more than extra-ordinary.

(d) 2024 (verse 23): „*Will earth suddenly change her orbit? Will a new solar star rise? Here they cry, 'everything is lost!' - in Vienna they sing, 'everything is rescued.'*” The ,new solar star' most likely means the micronova as the reason for the coming dark periods, which ends the first wave of hostilities. Alternatively, we could also see a supernova of Betelgeuse in Orion ([Link](#)) at 29° Gemini with a diameter about 666fold of our sun (albeit to be expected for circa 2028=1951+77), *Johannes Friede* on that ([Link](#)): „*So it will more & more shield the sun light for the earth and we will only experience days like moonlit nights, which are however not lit by the moon but by Orion.*“ *Friede* speaks of Jupiter & Orion, which could also mean that Jupiter will soon become a star, a Jupiter temperature of an incredible 700° C was detected in 2022 ([Link](#)). This explains the 3 suns mentioned by some prophecies: sun, Nibiru & Jupiter.

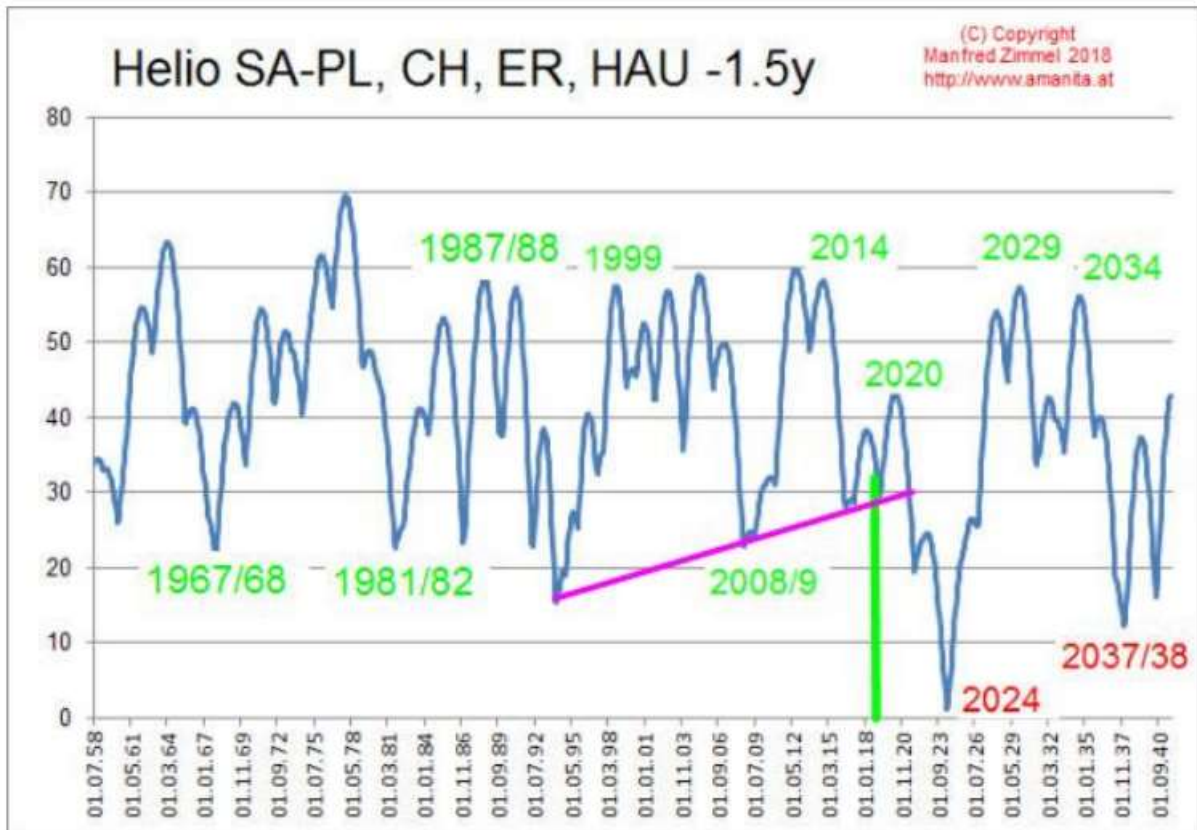

A similar prophecy from the year 2007 refers to a lunar occultation of the Pleiades in an 18.6 year cycle, the next time in August 2024 ([Link](#)).

Why does Vienna sing? First, because in late 2024 Vienna, Austria, will stop the Muslim invasion for the third time, after 1529 & 1683. *Nostradamus* 5-94 speaks of the parallel (Muslim) attack against Cologne & Vienna: birch tree battle mentioned by dozens of sources. Secondly, the later *Kaiser Henry* will be initiated in Vienna in 2024.

(e) 2025-27 (verses 24-26): In 2025 the later *Kaiser Henry* the Fortunate begins with the creation of his army of voluntary warriors, in 2026 begins to drive away all invaders & in 2027 retakes the entire German-speaking countries.

18. Astrological models June-July 2024 (2025): In the past years a lot of research has been conducted, the Amanita approach uses dozens of models. The war peaks in 2024/25 & the mid-2030s are confirmed by a great many independent factors, the focus is especially on June-July 2024. 10 examples:

(a) The proprietary astro model was sent out in 2018, it tracks the world situation best & shows a once-in-a-century low in 2024. 2020 was the last minor high, when the illuminati began their Covid terror etc.

(b) Bradley siderograph: In late 2021 the siderograph fell to the lowest level of the 2020s, within weeks (on 12/17/21) God's iron rod de-facto declared war against the God-dam NATO hellhounds. Big war ecstasies usually come 4-8 years after big Bradley lows, so this points to the mid- to late 2020s without a concrete year.

(c) UCT model by Steve Puetz: Most important low for many years at the turn of 2024/25.

(d) Cycle model by Daniel Ferrera: This composite model is based on 16 cycles, major war breakouts usually come 5-6 years after long-term cycle troughs. In 2016-22 we had a long-term cycle low, from the 2019 midpoint 5-6 years later point to about 2024/25.

(e) War cycles by Edward Dewey (Link): In the spring of 2024 we have the only cycles convergence 2020-32. For instance, these war cycles are due: 13.2 years, 12.2 years, 11.2 years & 10.2 years. The 11 year-cycle has a slope of 0.4 & thus is one of the two strongest cycles, in reality it is the sunspot cycle.

(f) 11 year solar cycle: Almost all big conventional wars in history broke out in the year of the sunspot maximum or in the 1-2 years before, which points to about 2024 (+/-1).

(g) Index by Andre Barbault: Major lows correlate with war breakouts +/-4 years, the monster low was in 2021, thus luckily the war window remains open until 2025.

(h) Mars dwads (twelfth of a sign): Almost all wars break out with the planets beyond Saturn in the first twelfth (Aries dwad 0-2.5°) of a sign, especially near 1°. The Scorpio dwad 17.5-20° (20=war) is weaker. Both Aries & Scorpio are ruled by the war planet Mars. Note the dwads are incredibly powerful & thus are almost always ignored in astrology: everywhere fallacy rules, the obvious is the most overlooked. Around 2024 we have a massive stellium in the two Mars dwads by Chiron, Uranus, Neptune & Pluto, the *only* convergence of that kind in the 2020s.

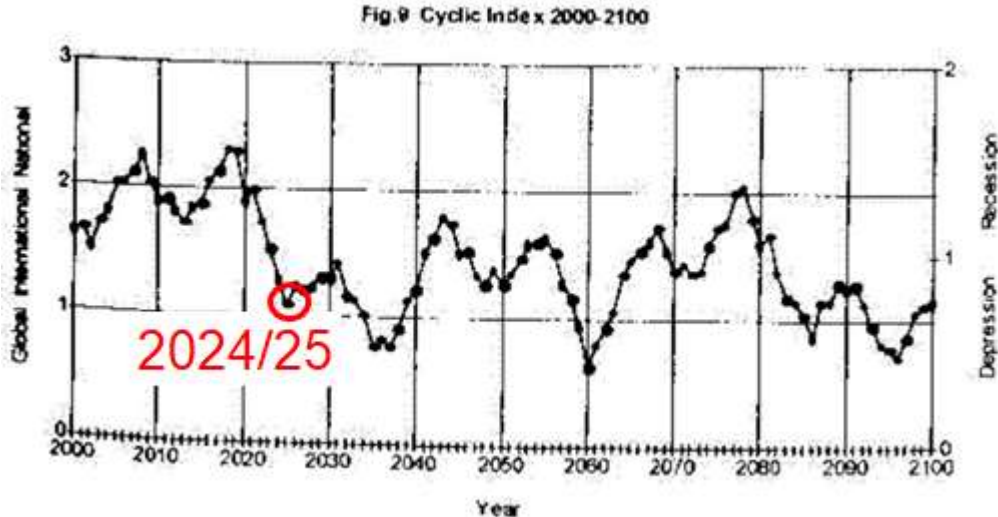

Historically the hell planet Pluto in the Aries dwad (ruler over the Scorpio dwad) is the master constellation, because both world wars broke out with Pluto geocentrically at 1.5-2° (statistically very significant P=1:3000): this is the case in spring 2024 (second time in fall 2025). The heliocentric Pluto was at 1° (+/-0.2°) at both world war breakouts, which is the case only once in 2009-44: in the summer of 2024.

During both world war outbreaks Mars was both geocentrically & heliocentrically near 20° (20=war) & in both cases we saw geocentric & heliocentric trines (120°) & sextiles (60°) of the slow planets in the 1-3 weeks before. In 2024 these short-term signatures are only found around late June/ early July 2024.

(i) In 1949 Johannes Friede (Link) spoke of Jupiter & Orion (mid- to late Gemini) for the beginning of the big upheaval: when we interpret that as a hint, then it points to August 2024

until May 2025, when Jupiter is hovering near Orion (next instance about 12 years later).

(j) War model by Rudy Bes: The chart below was published in *Correlation 20* (I) 2001/2. In 2024/25 we are at the significance level for a world war & then again around 2036, where we are in the final years of the 6+6+6 years of destruction according to *Ferdinand Ossendowski* (2020-38) & the last major battle in the Waldviertel in Austria, together with the Chinese we'll then overthrow Russia. At this time the rest of the world outside from these 3 power centers will be mostly uninhabited resp. in the Stone Age.

19. Soul review & model Marian apparitions spring 2024: Already several years ago the soul review was projected for 2022-24. Meanwhile spring 2024 has become the most likely timeline, fall 2023 the second one (unlikely fall 2024). Probably the soul review (warning/ aviso or deceptively called 'rapture') will be accompanied by darkness for 3-4 hours, as suggested by *Marie-Julie Jahenny* & *John Leary* LoC>600 ([Link](#)). The first trumpet of the Apocalypse (9/16/2023-10/3/2024) is a giant fire rain burning 1/3 of the planet: side-effect micronova? Based on almost 2000 years of Marian apparitions (the first in the year 0040 in the presence of *James*, son of Alphaeus, one of the 12 Apostles), I have created a model for physical God manifestations, which has the biggest hit in years in spring 2024, especially the master cycle 27.58 years. By the way, *Jahenny* recommends the Purple Scapular as a protection during the dark days, indeed it has a very high vibrations & should be present in addition to the bees-wax candles ([Link](#)). It is similar with the seal of the living God ([Link](#)).

20. Zombies May/ June 2024: For years it has been said that we should expect the first little zombie wave in 2024, a much bigger one is looming in 2028. 2024 the year of the dragon (=Satan, e.g. Revelation 12) also shows up in Buddhist prophecies ([Link](#)). The statement that

people will crawl instead of walk/ run in a dragon year is a double code: first for the return to an animal life style (=Stone Age) in some regions on the planet & second for zombies in particular. The dying of the black souls (the 'unchaste') was correctly predicted for the year of the rat 2020/21 & will partly repeat in 2032/33. Also zombie sources confirm via codes, the movie *Resident Evil* contains the 2:48 with a 24 code for 2024 ([Link](#)), moreover the Templar's cross ([Link](#)) which is the 666 seal ([Link](#)). The ratio humans (white souls): zombies (black souls) = 1:10.000 was also given the movie *Zombie Apocalypse* ([Link](#)). Note the first peak of the (zombie) plandemic in 2024 was quickly realized by smart companies & has been taken into consideration since 2021: in June 2021 a human resources consultant ([Link](#)) reported that the energy sector prepares to replace 50-100% of the (officially) jabbed until 2024. In the premium area this source was already quoted more than 2 years ago.

21. Sentiment analysis: The (m)asses always bet on the wrong horse, as in this case. A Google search on 5/12/23 for *Prophezeiung (prophecy) 2025* ([Link](#)) revealed a whopping 23x (!) times more hits than for *Prophezeiung 2024* ([Link](#)). For 3 reasons this pattern is even more dramatic than it looks on the surface:
 - (a) First, in general there are a lot more sources for the coming year than for later years, because the (m)asses always think very short-term.
 - (b) Second, the *planned* (!) US elections in 2024 are traditionally the most prognosticated event on the planet & alone that should raise the search volume for 2024 a lot.
 - (c) Strangely, many of the search results for *Prophezeiung 2024* don't contain any statements for 2024...?
In other words, in the eyes of the lobotomized 2024 looks totally irrelevant from a prophetic perspective, so the 180° opposite must be true, i.e. that 2024 is *the* year of the prophecies.
22. Dreams 2024: One dream from the year 2016 ([Link](#)) points to a '4' year like 2024 - 2034, 2044 etc. would be way too late. Another dream from the year 2004 also contained a code for 2024 ([Link](#)), similar to a dream from the year 1998 ([Link](#)).
23. Vedic prophecies 2025: In 1985 the Indian guru *Ramanoja* made a speech concerning the path of humanity, where of all years he picked the year 2025 as the reference, which is certainly not a coincidence (book *Die Prophezeiungen von Ramanoja: 1989-2025*). With an LoC of almost LoC=700 *Ramanoja* is in principle a senior prophet. The Indian guru Dr. *Jayant Athavale* has also been looking towards 2025 for many years.
24. Baba Vanga 2023: In the 20th century the blind Bulgarian seer spoke of a shift of the earth axis in 2023, which should correlate with the darkness & soul review.

Practical consequences: prepping

Do not suppose that I have come to bring peace to the earth. I did not come to bring peace, but a sword. (Matthew 10:34)

We now have a pretty precise timetable what shall happen from spring 2024 (partly already from fall 2023), major deviations are not allowed, otherwise we would have to consider a delay until 2025. However, with about 80% of the factors pointing to 2024 & only some 10% to 2023 & 2025 this appears highly unlikely at the time being. Knowing the exact timeframe is certainly very helpful for one's prepping. Ideally most of the prepping shall be completed by fall 2023, afterwards prepping becomes more & more difficult, especially because of the hyperinflation & the collapse of world logistics between fall 2023 & late 2024.

Different sources like *Nostradamus*, *Chuck-Johnel Youngbrandt* ([Link](#)), *Theodor Beykirch* ([Link](#)) & others list the following key dates for the year X: March 24-28, April 13-23, May 10-14, May 30-June 9, July 5-8, August 11-13, September 9-11 & October 12-21.

However, physical prepping only makes sense for a minority anyway, thanks God the galaxy will be quickly healed from its worst pest (humanity). The median life expectancy of humanity (world population has already been reduced by 30-50% since the all-time high) is a death between fall 2024 & mid-2025, i.e. mostly only 1-2 years. Because of the extreme asymmetry of the death curve (far from a *Gauss* bell curve), the median & not the mean is the appropriate statistical gauge. Around mid-2025 the planetary clearing away should slow down at a world population of some 2 billion vermins on 2 legs, a reduction of more than 75% from the all-time high 8.4 billion around

2012 (5.5 billion parasites around mid-2023).

But 1 million times more important than physical prepping is the soul prepping (make one's soul white again), because of death looming for the majority of the world population. Since summer 2022 there is not a *single* white soul among the thousands of subscribers of the premium & free service. This is the statistical expected value, because only one person among 10,000 still has a white soul & thus is heading into heaven (without a change of course).

How do you recognize God's servants? Both time quantity & quality are required. It is next to impossible to make a black soul white again without 8-12 hours *good* spiritual work per day over a *long* time (years, sometimes months). A key hint is whether they are aligned with the time quality, because according to the prophet Kohelet there is a time for everything, also for war. Unfortunately, *Kohelet* is avoided like the plague by the 'Christian' devils, because his message is 100% contradicting these spiritual junkies who never want to accept anything else than love. That's why I found *Kohelet* chapter 3 first quoted in an astrology book. The prayer of a God warrior could for instance sound like that:

*Oh our God, make us the instrument of your divine wrath!
So that we fight in the 6+6+6 years of war until 2038 instead of behaving like a pussy,
that we follow Christ by bringing the sword instead of peace,
that we are the instrument of 666 trillion punishments against the dark powers each second,
that we destroy all realms & works of the evil ones once & forever,
that we experience true holiness instead of good-doer hypocrisy,
that we burn all devils & satanic works through divine fire,
that we never ever buy the idea of a 'free will' like the Freemasonic (devilish) Christians,
that we expel all weakness & cowardice in our hearts, as Arjuna with the help of Krishna,
that we free the galaxy of its worst plague (black souls),
that we embody all your 330 million divine aspects, especially fierceness in battles,
that we strike the earth with every kind of plague as often as you want, as your 2 witnesses,
that we destroy both the beast of the earth (Satan) & the water (Queen of the Sea) & their staff,
together with archangel Michael & his angelic hosts.
So be it, so be it, so be it. Amen.*
